

# MANUFACTURER SAID TO BE THE BEST IN THE WORLD

ALL JAPAN BUDOGU - THE WORLD'S LEADING KENDO BOGU PRODUCER

In Japan, we are the only company that owns both Japanese and foreign factories, allowing us to create, manage, and develop our own products while directly teaching, preparing, and training our foreign workers.

## Manufacturing Plants

### **Japan Factory**

With 80 years of history, Nihon Kendogu Seisakusho (NKS) workshop has even attracted the attention of the Emperor of Japan, who visited to observe the craftsmanship of Japanese Bogu. We are pioneers in developing and introducing Machine Stitch Bogu to the world. Most of our craftsmen and artisans have been making Kendo equipment for at least 20 years, with some having over 40 years of experience, adhering to traditional Japanese methods. We are reputedly the only factory in Japan capable of producing every part of the Kendo equipment in-house. Notably, 70% of the Bogu made in Japan originates from our factory.

### **Laos Factory**

Our workshop in Laos is 100% self-funded and owned, guided by skilled local artisans. We have earned recognition from the highest levels of the Laotian government, having been invited to the official residences of the Prime Minister and Prime Minister of Laos before the Mekong Summit Meeting as a gesture of their gratitude. Kendo Bogu produced in our factories are recognized as traditional crafts made by certified craftsmen. These factories are a testament to our status as Japan's top manufacturer, working side-by-side to deliver the highest quality goods.

### **Guaranteed Reliable Kendo Equipment**

Our 80-year-old workshop, NKS, is renowned for producing the best quality Kendo equipment, favored by Japan's top athletes. The factory has hosted an imperial exhibition and received accolades in world competitions and All-Japan Championships. Many athletes competing in the All Japan and World Championships have visited our workshop in Miyazaki Prefecture, further attesting to our credibility.

### **Credibility**

In just one month, over 800 sets of our products have been purchased, underscoring our reliability. The loyalty of our customers, who repeatedly return to us, serves as the ultimate proof of our excellence.

### **Unflawed After-Sales Service**

Our factory's extensive history and unique capability to craft every component of Kendo equipment ensure exceptional after-sales support. With over 80 years of expertise, we guarantee outstanding service and satisfaction.

# ALL JAPAN PITCH 2025 PREMIUM - SUPER JISSEN

Compared to other series, the Super Jissen Model is designed for Ultimate SHIAI Performance. Features reduced weight, which slightly impacts durability. However, the superior usability and performance more than compensate, offering exceptional value. The firmness and texture have been significantly improved over previous models, making this an essential item for competitive use.

Note: As a SHIAI-specific bogu, this product is engineered for top-tier performance. We strongly recommend avoiding its use during regular practice sessions, especially the kote, as it is designed for matches and achieves its full potential in such settings. Given its highly specialized design, please use it at your own discretion.
